Tel: 254-2-331543/332963

Fax: 254-2-332878

**Notice to Contributors**

*Pachyderm* welcomes original manuscripts (not published elsewhere) dealing with the conservation and management of elephants and rhinos. All submissions are reviewed by at least two referees. Manuscripts should preferably not exceed 4,000 words; shorter ones have a greater chance of being published. Contributions may be written in English or French and should be typed on one side of A4 paper, double-spaced with ample margins. All manuscripts must have an abstract or summary. Final versions of manuscripts should be submitted on IBM-compatible 3.5" diskettes in WordPerfect or Microsoft Word (preferred) format if possible. The full postal address of the first author should be included as well as the address of any other author.

Tables and figures should be submitted on separate sheets along with the captions to illustrations typed out on another sheet. Figures should be black-and-white high quality graphics, suitable for reduction. Photographs should be unmounted, glossy prints of good quality. Abbreviations and references should be made using the same format provided by the African Journal of Ecology.

*Pachyderm* is the journal of the IUCN/Species Survival Commission (SSC) of the African Elephant, African Rhino and Asian Rhino Specialist Groups. The articles published in *Pachyderm* do not necessarily reflect the views or opinions of the Specialist Groups, SSC, IUCN, the Editorial Board or the Editor.

Publication costs for this issue have been provided by the United States Fish and Wildlife Service

Production supported by:

IUCN  
The World Conservation Union

## Contents
