SIR ANDREW CLARKE has presented the Zoological department of the Gardens with a fine female two-horned rhinoceros. The animal is a magnificent specimen, and is, besides, in calf. She is receiving every attention under the superintendence of Mr. W. Krohu,—who has undertaken the care of the animals and birds,—and is doing very favourably. She is a native of the Peninsula, and was a present to Sir Andrew Clarke from the Datu Klana of Sanghie Ujong.
