Art Auction

The art auction Saturday evening, February 6, starts with the SAKS Fifth Avenue Fashion show, where the finest models and newest attire will complement the extraordinary art donated by the world's finest talent. The pieces include a variety of media ... pencil sketch, etching, oil, tempera, water color, bronze and the work of master gun engraver Joseph.

Hunters first moistened ochre dirt and vegetable pigments in those earliest caves 10,000 years ago, choosing the hunt as the primary subject. The long continuum of artistic expression from Egyptian, Roman, Renaissance and to contemporary times honors the hunt and its solid hold on the psyche of man.
