

## 2002 BOWLING FOR RHINOS - Making A Difference

*Presented by Patty Pearthree  
National Coordinator, AAZK's Bowling For Rhinos*

### **Introduction**

The American Association of Zoo Keepers (AAZK) "Bowling for Rhinos" (BFR) fund-raiser has raised over \$1,700,000 since 1990 entirely through volunteer efforts. It is the hard work and dedication of these volunteers that will make the difference in wildlife conservation efforts. Everyone should be proud to have taken part in such a successful program.

One hundred percent of all donated funds go directly to three rhino conservation organizations. The first is Lewa Wildlife Conservancy (LWC) in Kenya, which has grown to 55,000 acres protected with a two meter tall electric fence that is home to 32 black and 33 white rhino (8/23/02). In 1994, AAZK expanded its funding efforts to include Ujung Kulon National Park in Java, Indonesia which is home to the last 47 Javan rhinos on earth (with a few recently discovered in Viet Nam). AAZK expanded its funding efforts once again in 1997 to include Bukit Barisan Selatan National Park (BBS) in Sumatra, Indonesia where one of the largest populations of Sumatran rhinos live. There is now an Indonesian Rhino Conservation Program that includes all parks with rhino populations and BFR has become part of this program. All these efforts also protect unique ecosystems enabling the conservation of hundreds of endangered plants and animals.

### **2001 BFR Results**

Forty-two Chapters or institutions turned in money in 2001 for a record total of \$192,789.14! \$105,000 was sent to Lewa Wildlife Conservancy with \$4,000 being retained for 2002 BFR program expenses. An extra \$5,000 donation was given for specific use at LWC this year. \$43,894.57 was sent to Ujung Kulon National Park and \$43,894.57 was sent to BBS in 2002 from the 2001 event.

### **2002 BFR to Date**

Forty chapters or institutions have stated they will hold an event in 2002. As of 9 September, 2002 29 chapters or institutions have turned in money for a total of \$130,780.83. I estimate the total to be \$150,000 when all money is turned in for 2002.

### **Making a Difference**

In the 1980's it was predicted that rhinos and elephant would be extinct by the year 2000 due to poaching. The black rhino population numbered about 100,000 in 1960 but remains around 2,600 today. The number of elephants in Africa is half what it was 40 years ago. It is true that the Black rhino numbers have plummeted. However, just the fact that these numbers are not zero is only because of dedicated conservationists who had to literally resort to armed camps to protect the remaining numbers of these species. The southern white rhino made a comeback from 20 animals in 1913 to 10,400 today.

There are now about 550,000 elephants in Africa. The largest herd, estimated at 60,000, moves among five countries. Indonesia's rhino population plummeted 50% in a matter of five years. Only after the onset of the very intensive and specially trained rhino patrol units has the population held steady. The International Rhino Foundation, US Fish & Wildlife Tiger and Rhino Conservation Fund, World Wildlife Fund, and AAZK, In., are the main contributors to the Rhino Patrol Unit (RPU) program.

Without conservation organizations like AAZK, these animals would surely be extinct today. I hope you will rejoice in knowing these magnificent animals that have walked on earth for millions of years are still thriving. It is in our hands to continue this work to protect these animals and have their populations return to reasonable sizes. We **have** made a difference and will continue to do so.

**BFR 2002 Top Individual Money Raisers**

Thanks to everyone for the outstanding effort this year! Here are the top 10 individual fund raisers:

<b>Name</b>	<b>AAZK Chapter</b>	<b>Comments</b>	<b>Total Raised</b>
Victoria Zahn	OKC	Wins LWC Safari	\$16,607.32
Bethany Lutz	Utah	Wins LWC Safari	\$ 9,200.00
Peggy Huscher	Rolling Hills		\$ 3,645.23
Patty Pearthree	North Carolina		\$ 2,270.00
Alex Vasquez	Dallas		\$ 1,377.13
Craig Miller	Craig Miller		\$ 1,000.00
Ed Curtis	Detroit		\$ 1,000.00
Linda Hicks	Reid Park		\$ 830.00
Eileen Jones	Staten Island		\$ 593.00
Nancy Gunter	Portland		\$ 557.00

**BFR 2002 Top Money Raising Chapters**

Thanks to everyone again! Here are the top three fund raising organizations:

<b>AAZK Chapter or Organization</b>	<b>Zoo Affiliation or Comments</b>	<b>Raised Funds</b>
Oklahoma City		\$ 16,607.32
Detroit		\$ 14,281.25
Puget Sound		\$ 11,005.00

Portland AAZK has raised the most since BFR started with a total of \$143,095.31!

**See Appendix I (History of Funds Raised) for more information on funds raised.**

It is extremely important to have continued participation from everyone if we are going to continue in our success. It doesn't matter how little or how much money is raised by your event. All events and funds raised are important! Public awareness of the plight of the rhino is of utmost importance so whatever it takes to get the word out is incredibly helpful. Remember, it takes about 5 consecutive years for a fundraiser to take hold where people start to count on it, so it's important to hold an event each year! It's also fun!

**See Appendix II for a comparison of events over the years.**

\*\*\*Bowling For Rhinos is not only about saving rhinos. We save rhino habitat so we are saving everything from orchids to elephants! Lewa has the second largest population of elephant in Kenya and 25% of the world's Grevy zebra population.\*\*\*

**Use of Bowling For Rhinos Funds**

One hundred percent of all funds raised are sent directly to three rhino conservation projects conserving four species of rhino, their habitats, and hundreds of other endangered plants and animals. BFR helps

preserve the Black and White Rhino in Africa and the Javan and Sumatran Rhino in Indonesia. The first \$100,000 raised each year goes to the Lewa Wildlife Conservancy with the remainder split between Ujung Kulon National Park and Bukit Barisan Selatan National Park.

### **See Appendix III (Distribution of Funds Raised)**

#### **Lewa Wildlife Conservancy, Isiolo, Kenya**

The money AAZK raised with BFR was used to complete the Ngare Sergoi rhino sanctuary fence, fence in the Ngare Ndare Forest Preserve, purchase a plane and a Lorry (truck used to transport animals), fence off the two remaining boundaries and increase security. The old existing fence between the rhino sanctuary and the Ngare Ndare forest area was then removed. This created a 55,000-acre haven where everything from orchids to elephants could flourish. This allows the animals to migrate between the rhino sanctuary and the lush forest area - which is extremely important during times of drought. There are 145,000 acres under common wildlife policy but only 55,000 acres are enclosed by the fence with an area open at the north end to allow for the migration of elephant in and out of the sanctuary. Starting in 1994, BFR funds were used to help provide the operating costs of this successful rhino sanctuary. From 1990 through 2001, \$1,284,455.72 has been sent to LWC.

The annual operating cost of the sanctuary is over \$850,000 with 170 guards protecting the area. Anna Merz, AAZK's BFR funds, and private donations combine together to fund the operating costs. Operating costs include funding the security staff for the sanctuary and the wildlife, maintenance for the fence, vehicles and plane, and research staff to provide information such as carrying capacity determinations and fire burning regimes. By supplying operating costs, AAZK makes it easier for Lewa to solicit private donations to provide funding for special projects. Future plans include relocation of reticulated giraffe, common zebra, and other wildlife to restock depleted neighboring wildlife areas, and increasing the number of security patrols and vehicles. Fuzz Dyer, head of security for LWC since 1983, has moved back to his family ranch, Borona, which borders LWC. He plans to implement the same aims and principles of LWC at Borona, with the ultimate objective being to remove the fence between the two properties allowing for free movement of wildlife. If the plan works, it will create the largest conservation area made up of private and community owned land in Kenya and would create 300,000 acres for wildlife.

The population of black rhinos started with an initial translocation of 15 rhinos into the sanctuary in 1984 when it was only 5,000 acres. The sex ratio was biased towards males. Consequently, a number of the pioneer adult males were lost in the initial years due to fighting. To improve the sex ratio, seven males have been moved to other sanctuaries. By 1994, when the sanctuary was expanded to 55,000 acres, 10 births had been recorded. Twenty births were recorded between 1993 and April 2002. Peak calving occurred after the 1997 El Nino rains. One hand-raised orphaned male was recently moved to the neighboring community conservation area of Il Ngwesi. There are now 32 black rhinos. The survival rate of calves has improved to 92% since 1998.

For additional information see the Lewa website at <http://www.lewa.org>.

#### **Javan and Sumatran Rhinos**

The two kinds of rhinoceros in southeast Asia are the most endangered of the five surviving rhino species. There are fewer than 100 Javan rhino - about 50 in Ujung Kulon and another 20 in Cat Loc Vietnam. The Sumatran rhino is considered the most critically endangered species of rhino by the IUCN/SSC Asian Rhino Specialist Group (AsRSG). Fewer than 300 are estimated to survive worldwide. Although not as rare as the Javan rhino, poaching pressure is more intense on the Sumatran rhino whose population declined at least 50% from 1990-1995. BFR supports two National Parks in Indonesia which protect the Javan and Sumatran Rhinos. If it had not been for the support from IRF, US Fish and Wildlife Service

Tiger and Rhino Conservation Fund, WWF and AAZK over the past 10 years, the Sumatran and Javan rhinos would surely have perished. We must now look to the future to maintain and increase the populations to respectable sizes.

#### **Ujung Kulon National Park, Java, Indonesia**

Ujung Kulon is a 300 square mile National Park that is home to some of the rarest plants and animals on earth. It is one of the last remaining lowland rainforests in the world with hundreds of endangered plants and animals, including the Javan rhino. The annual running cost of Ujung Kulon is a roughly \$100,000.

Since 1996, \$179,860.43 has been sent to Ujung Kulon from AAZK's BFR events. These funds were used to purchase such items as a well, pump and water tower at the Karangranjang guard post, the completion of a new patrol boat, camera units for photo trapping census of the Javan rhino, installation and maintenance of the cameras, training staff for trapping census and preparation of photo inventory of field data, 32 hand - held radios, radar unit for night patrol boat and trained a "Rhino Patrol Unit" (RPU). These are very intensive, specially trained anti-poaching units of five men. These RPUs are the only proven method to effectively conserve these tropical forest rhinos.

The 1999-2001 funds were used for the operational costs for camera checking for census work on the Javan rhino at \$21,000/year and to purchase a much needed, high powered patrol boat in collaboration with Minnesota Conservation Officers and the US Fish and Wildlife Service. There are currently three RPUs operating in Ujung Kulon. Future support will continue the census work over the next couple years, train and support the continued use of RPUs to protect wildlife, and pay for maintenance of existing buildings and equipment.

The photo-trapping census work in Ujung Kulon is now 90% complete. Thirty-seven Javan rhinos have been individually identified. They expect the total to be 45-52 animals. No poaching has occurred in Ujung Kulon over the last 18 months.

#### **Bukit Barisan Selatan National Park, Sumatra, Indonesia**

**Half of the monies over \$100,000 raised each year from BFR will go to Bukit**

**Barisan Selatan National Park (BBSNP)** which is believed to have one of the largest populations of Sumatran rhinos. This is a 3,568 square km protected area on the southwest side of the island of Sumatra. Asian elephant, tiger, clouded leopard, Malayan sun bear, Indian wild dog, and a substantial number of the estimated 300 Sumatran rhinos live within this park. Since 1998, \$110,010.43 has been sent to Bukit Barisan from BFR funds.

For the most part, all necessary equipment and training for RPUs have been provided by the Global Environment Facility (GEF), (US Fish and Wildlife Rhino and Tiger Conservation Fund) USFWS RTCF, and International Rhino Foundation / IUCN Asian Rhino Specialist Group (IRF/ AsRSG). Adequate patrol shelters already exist in the Park for the patrol work of RPUs. What is needed at BBSNP for rhino conservation is operational funds for the RPUs. The operational cost for each RPU is currently \$17,000/year. BFR money will be used in this way for the next few years.

There are currently six RPU's (of four-man teams) operating in Bukit Barisan and two additional Tiger Patrol Units (TPU). The poaching pressure in Indonesia is more intense than ever. Two rhinos were poached this summer in BBS. It is believed inside information was leaked to poachers by a Wildlife Conservation Society survey team. Information on RPU routes and patrol times was given to poachers. It is now high priority to ensure no further leaks occur. More vehicles for the RPUs are currently the top priority item. The RPUs are vital to the survival of Indonesia's rhinos and other wildlife.

There is now an Indonesian Rhino Conservation program (IRCP) that includes all parks with rhino populations. This program will allow funding to be used on top priority needs in top priority locations to conserve wildlife. BFR is now part of this program. This allows unused funding in any given year to go through IRCP to be reallocated to these top priority locations. This will allow BFR to expand funding to include such places as Way Kambas (Eastern Sumatra) that has a large population of Sumatran rhinos. The unexpended funds from this year at Ujung Kulon will now be used to establish two more anti-poaching teams in Way Kambas and assist with the poaching situation in Bukit Barisan.

For additional information on rhino conservation, see <http://www.rhinos-irf.org/> or <http://www.5tigers.org/>.

### **BFR Fund-raising Guidelines**

- Events should be held between March 1- August 1st.
- I send out fliers in *AKF* requesting info on your upcoming event. This helps me know how many new sponsor sheets you need and when your event date is in case people in your area call me for info.
- If interested in participating, send for an information packet (or see <http://bfr.aazk.org/>) and let me know the number of sponsor sheets to send.
  - \*If you have never held an event, see "how to hold an event" on the web site.
- There is a **\$25 administrative fee** to participate which should be made out to "AAZK, Inc." and mailed to Patty prior to obtaining sponsor forms. This fee covers indirect costs incurred by AAZK, Inc. due to BFR (phone, postage, faxes, bank fees). Administrative fees are waived for the first year a Chapter participates.
- Call Patty if the information packet does not answer your questions (919-678-0449)
- \* There is now a multimedia BFR CD for any participating Chapter or institution that requests a copy. This CD includes a BFR slide show with script, a Lewa promo video and an Ujung Kulon video.
- **To qualify to win the trip to Africa, all money must be sent in to me by 1 September of each year.**
- **Please try to have all money sent within 30 days of your event.** I write this workshop paper in September so if you want to be included in these totals, send in the money.
- If a Chapter does not wish to send their checks certified mail, the following is the only way to insure that your check is not cashed by anyone other than AAZK, Inc.! **Please write "For Deposit Only" on the back signature area of all checks. This will ensure only AAZK can deposit it instead of just anyone who may intercept it!**
- Please make out one check payable to **"AAZK, Inc.-Bowling for Rhinos"**, include a copy of your financial form & a copy of **only the high money raiser's sponsor sheets** and mail to:

Patty Pearthree c/o Bowling For Rhinos  
318 Montibello Dr. Cary, NC 27513  
(919) 678-0449 [ppear3@aazk.org](mailto:ppear3@aazk.org) web site <http://bfr.aazk.org/>

\*Contact your local "Rhino Linings" Company (truck liners) to see if they would be willing to help your event. Items donated in the past were blow up rhinos, give-away items and a truck liner for raffle. You can contact Patty for the local contact nearest you.

\*It is very important to remember that we advertise 100% of all donations go towards conservation. All donations from donors must be submitted to AAZK Bowling for Rhinos for this to be true. This means that your organization must cover any expenses for this event. This can be done by charging a fee for bowlers, through silent auctions, door prize raffles, your local organizations funds, etc.

\*Anyone can join the Bowl-a-thon so **don't limit yourselves to only zoo people. However, be sure it is clear that only National AAZK members are allowed to win the trip.** If you have a potential winner, ask them to join AAZK.

**\*No matter how small the Chapter is or how few bowlers you have, every dollar helps so don't be afraid to give "Bowling for Rhinos" a shot!**

I would also like to add a special Thank You:

Mary Ann McNamara retired from the Potter Park Zoo after working 25 years. She donated the money raised from her retirement party to Bowling for Rhinos (\$141)! Thank you Mary!

I would like to welcome some newcomers to Bowling for Rhinos:

Chaffe Zoo raised \$1,265

Lion Country Safari raised \$ 593

Staten Island Zoo raised \$ 3,043.50

Whether your Chapter's event is large or small, the important thing is that we are doing it! We are getting the message out, staying in people's mind's year after year about the plight of the rhino and other endangered wildlife. So remember that when you are asked to be the coordinator for your event, and do the work, because in the end, you really can make the difference!
