

To the Curious among the Nobility and Gentry.
THERE is just arriv'd from Bengal, in
the East-Indies, alive, and in good Health, that strange and
wonderful Creature call'd
June 18. 1739.
A R H I N O C E R O S.
This Beast, when full grown, is next in bigness to the Elephant; it has
only one Horn, which grows out of his Snout, and is, when at its full
bigness, so strong and sharp, that with this in fighting it kills the
Elephant.
No Creature of this kind has been seen in England, or any other Part of
Europe, these fifty-four Years, and then only one.
It is to be seen from Nine in the Morning to Eight at Night, in Eagle-
Street, near Red-Lyon-Square, Holborn, at Half a Crown each Person.

A R H I N O C E R O S.
This Beast, when full grown, is next in bigness to the Elephant; it has
only one Horn, which grows out of his Snout, and is, when at its full
bigness, so strong and sharp, that with this in fighting it kills the
Elephant.
No Creature of this kind has been seen in England, or any other Part of
Europe, these fifty-four Years, and then only one.
It is to be seen from Nine in the Morning to Seven at Night, in Eagle-
Street, near Red-Lyon-Square, Holborn, at Half a Crown each Person.

THE surprising great Animal, called
R H I N O C E R O S, alive, being the only one of that Kind in
Europe; its Nose is armed with a Horn to fight the Elephant, whose Con-
queror it generally is; its Hide is covered with Shells, that he looks like a
Man in Armour; its Paws are short and thick, like the Elephant; it can
swim and dive like a Duck; *1739* brought over from Bengal, is as tame as
a Lamb, being caught very young, and for two Years has run round the
Tables of Gentlemen and Ladies like a Lap-Dog. This Animal con-
sumes daily 70 Pounds of Hay, and 25 Pounds of Bread, drinks 14 Pails
of Water, is 18 Years of Age, 12 Feet thick, and of 6000 Pounds Weight.
The Royal Family, and Nobility and Gentry, have seen this Animal
with great Satisfaction. This Creature may be seen from Eight in the
Morning till Six, at 2s. the first Place, 1s. the second, and 6d. the
third, in a Tent at the Horse and Groom in Lambeth Marsh.

Now to be SEEN,
At the George Inn in the Hay-Market, at 1s. each Person,
A Great Female RHINOCEROS, landed
within a Month from on board the Shaftesbury, from the East
Indies. This extraordinary Animal is in its full Strength and Beauty,
being four Years old, and in Height four Feet nine Inches, and nine
Feet and three Inches round her Body; she has a large Horn on her Nose,
and three Hoofs to each Foot; its Skin is scaled all over, and so hard and
well folded as to secure it from any Hurt by other Beasts, and not hinder
its Motions.
If any Person is dispos'd to treat for it, they may deliver their Pro-
posals at the Inn, directed to Capt. Canet, the Owner.
