Norwich, White Lion Street, Jan. 29th, 1819.

G. WOMBWELL

BEGS leave to inform the Public in general, that his immense MENAGERIE of

WILD BEASTS & BIRDS

will **FINALLY CLOSE** on **Wednesday Evening**, the 27th inst.; and on Friday it will be opened at Yarmouth, where there is no doubt but he will meet with that encouragement such a collection of Living Curiosities is deserving of, as it always was his chief care and study to exhibit those Animals that are worthy the attention of an enlightened public; and he is highly proud to have it in his power to say, that his Collection is universally allowed to be the first in Europe, and to excel all others both for rarity and number. G. W. has further to acquaint his friends and the public, that the Rhinoceros now in his Menagerie is *the only one living in Europe*.

It was intended to proceed with the Collection from Yarmouth to Bungay and Beccles, but as the bridge from that place is considered unsafe to carry over the immense caravans, they must return thro' this city for Lynn.

All persons having any just demands on the Proprietor, are requested to send an account thereof, that the same may be discharged.

Norwich, Jan 22nd, 1819.
