UM, *This Evening* for the last time. m 28

THE MENAGERIE.

THE proprietors of the Menagerie duly appreciate the liberal patronage bestowed upon their establishment during the last winter, and they would most respectfully state that their Menagerie will positively close on the 30th instant. They also have the pleasure to say, that all their Animals are in a perfect state of health and cleanliness. The Rhinoceros is now placed in a new cage, (in the construction of which there is over 2,500 pounds of iron) and the most timid, on seeing him in his new habitation will lose all apprehension of danger from his occasional pranks. They will continue to give their attention to those who may favor them with a call until the time above stated, when they will make their exit. march 20

ONE or two Gentlemen can be accommodated with board, on moderate terms, in a private fami
