THE CUSTOMS MANAGEMENT ORDINANCE, 1926.

ORDER.

(Under section 111 of the Ordinance).

I HEREBY PROHIBIT the exportation from the Protectorate of leopard skins, or any part thereof, without the permission in writing of the Game Warden.

B. H. BOURDILLON.

ENTERBE.

Governor.

20TH JUNE, 1933. (S.M.P. D. 120/13).

PRESERVATION OF THE WHITE RHINOCEROS. NOTICE.

THAT PORTION of the Protectorate lying to the west of the Albert Nile is the only area of Uganda in which the white rhinoceros is found, and there only in very limited numbers. The Government is most anxious that this rare species, which is on the protected list of the Uganda Game Ordinance, should be carefully preserved.

- 2. Instances have occurred in which persons hunting other game in this area have killed white rhinoceros in self-defence. This animal is not normally aggressive, and a skiiful and careful hunter should have no difficulty in avoiding attack.
- 3. Notice, therefore, is hereby given that the Governor intends in future to exercise the powers vested in him by section 69 of the Uganda Game Ordinance, and to cancel the game licence held by any person who kills or wounds a white rhinoceros notwithstanding that he may have done so in circumstances which do not constitute an offence under the Uganda Game Ordinance.
- 4. Persons who enter the above-named area for the purpose of photographing the white rhinoceros, are warned that under the Uganda Game Ordinance any unnecessary act towards or conduct in respect of a protected animal calculated or tending to disturb, infuriate or terrify that animal, is punishable by a fine of £100 and or six months' imprisonment, and, if the offence relates to more animals than one such animal, to a fine of £250 and/or eighteen months' imprisonment. Notice is

hereby given that it is the intention of the Government to institute proceedings under section 4 of the Game Ordinance against any person who wounds or kills a white rhinoceros as a result of an attempt to photograph it, unless special permission for the taking of the photographs has first been obtained from the Governor

E. L. SCOTT.

Acting Chief Secretary to the Government.

ENTEBBE.

9TH JULY, 1930.

THE GAME ORDINANCE, 1926.

NOTICE.

- 1. THE ATTENTION of the public is drawn to the fact that it is an offence under the Game Ordinance to possess any live animal or bird or any trophy or any other part of any animal which has been obtained in contravention of the Game Ordinance.
- 2. It is also an offence to purchase any live animals or birds or any portion of any animal or bird mentioned in the Schedules of the Game Ordinance, except with the written sanction of the Game Warden or an Administrative Officer. Itinerant natives frequently offer for sale White Colobus monkey skins, Blue Duiker (Ntalaganiva) skins, and living East African Crowned Cranes, often known as Kavirondo Cranes, and it is an offence to purchase the above without permission.
- 3. The above restrictions do not apply to guinea fowl shot by a native who has been granted a permit by an Administrative Officer to sell guinea fowl.

R. J. D. SALMON,

ENTEBBE.

Acting Game Warden.

15TH AUGUST, 1930.
