

**RHINO RESOURCE CENTER
NEWSLETTER #6 – FEBRUARY 2007**

Dear colleagues,

Best wishes for a good 2007. This is the sixth quarterly e-newsletter of the Rhino Resource Center to alert you of recent books and articles about the rhinoceros. If you want to add others to this service, or unsubscribe, send me an email (rhino@rookmaaker.freemove.co.uk)

In the past quarter I have added 72 new references, which brings the total number of items in the database to 11.113.

Below I have listed new entries published since 2000. The older ones will appear on www.rhinoresourcecenter.com once the database is updated.

Remember that anything not listed here might be a welcome addition to the RRC database.

Thank you,

Dr Kees Rookmaaker
Chief Editor of the Rhino Resource Center
