

**RHINO RESOURCE CENTER
NEWSLETTER #7
MAY 2007**

Dear colleagues,

This is the seventh quarterly e-newsletter of the Rhino Resource Center to alert you of recent books and articles about the rhinoceros. If you want to add others to this service, or unsubscribe, send me an email (rhino@rookmaaker.freemove.co.uk)

In the past quarter I have added 121 new references, which brings the total number of items in the database to 11.234.

Below I have listed new entries published since 2000. The older ones will appear on www.rhinoresourcecenter.com once the database is updated (very soon).

Remember that anything not listed here might be a welcome addition to the RRC database.

A few announcement of conferences and queries are added below.

I hope this list of references is helpful. It should have some interesting items for anybody.

Thank you,

Dr Kees Rookmaaker
Chief Editor of the Rhino Resource Center
