No. 191

Medini Prajapati & Govinda Lamichhane, Editors

For the 191 issue, we reviewed 55 news reports from 19 sources and selected 14 happenings in five countries. This week, news from Nepal Himalaya is depressing. Human-Elephant conflict is all over and construction of road in Bardia National Park is likely to take its toll in Biodiversity conservation. Illegal felling of trees is rampant in the Chure region of West Nepal. News on wildlife dominates India Himalaya this week. Killing of rhinos is at high in Kaziranga National Park with a poacher trying to kill rhino at a city zoo and dog coming to the rescue of forest officials to track down poachers. In Bhutan farmers can now ward off wild animals through electric fencing while hydro power dam irks farmers in Pakistan with no water supply for irrigation.

Headlines Himalaya, a weekly e-News is an attempt to keep our global readers abreast with the happenings in the Himalaya. Please share it with your colleagues and friends. Also, subscription is free. Enjoy!

#### RHINO KILLED, POACHERS BID FOILED

A female rhino was killed in Kaziranga National Park but the horn remained intact as poachers fled the scene while security personnel stormed in. To track down the poachers, a dog has been put into service which has managed to gather some evidence. The dog has been brought from Slovakia to help park officials. Similarly, forest guards at Kaziranga National Park during operation against poachers, gunned down a female rhino. The rhino was shot while the officials were attempting to scare off the rhino. Meanwhile, a man was arrested who sneaked into the city zoo in Assam to kill rhino for its horns.

### **FARMERS CRIES AGAINST WATER RESERVOIR; FLOODWALL TO THEIR RESCUE**

For the past one year around 29,000 hectares of agriculture land have been without water in southern districts of Khyber Pakhtunkhwa as the perennial floodwater is being stored in reservoir of the upcoming hydel project in the area. Farmers are left with no options as they have to wait until the project completion for smooth water supply. Meanwhile, a 137 meter long gabion flood protection wall has been constructed in lower Kuram agency to avoid damages to agriculture land during seasonal flooding.
