LADIES, and OTHERS,*

**T**HAT there is come to this TOWN, and is to  
be seen without Loss of Time, at the Sign of the  
*White Hart* in the *Irongate* in *Derby*, a FEMALE

*Rhinoceros:*  
OR, THE REAL

A Work of Nature hardly to be parallel'd, that destroys  
the ELEPHANT. This extraordinary Animal is five

Inches round the Body, and 14 Foot two Inches from the

thro' the Great *MOGUL's* Dominions to *Bengal*, from  
whence it was brought over on Board the *Shattsbury*,  
Captain *BOOKER*. She is upwards of Forty Hundred  
Weight, has a large Horn on her Nose, three Hoofs on  
each Foot, and a Hide thick stuck with Scales, Pistol  
proof, and so surprisngly folded as not to hinder its Moti-  
on, and to defend it from the Injuries of all other Ani-  
mals; with many other Particulars which the Curious  
may observe: And is the only compleat Animal of that  
kind, that has been seen in ENGLAND these Eighty-five  
Years, according to the best Information that has been  
receiv'd.
