No More Cloudy Teeth Restore Whiteness Now

Gain gleaming, sparkling whiteness

Please accept full 10-day tube free. Note the amazing difference in the color of your teeth and firmness of your gums when dingy film is cleared off as leading dentists urge.

MODERN dental science has discovered a new way in tooth and gum care. Off-color teeth thus are quickly whitened, restored to sparkling clearness. Tender gums are firmed, given healthy coral color.

One's whole appearance thus is often amazingly changed in this way. Famous movie stars use it before going on a scene as an essential part of "make-up." That's largely why movies' smiles glisten so.

Leading dental authorities now widely urge it. For it marks a new era in tooth and gum protection. Please accept a full 10-day tube to test. You'll find your teeth are not naturally off color... simply coated with a dingy film that clouds them.

Just a film hiding them And imperiling your gums

Dental science now traces scores of tooth and gum troubles to a germ-laden film that forms on your teeth.

Run your tongue across your teeth and you will feel it—a slippery, viscous coating.

That film absorbs discolorations from food, smoking, etc. And that is why your teeth look "off color" and dingy.

It clings to teeth, gets into crevices and stays. It lays your gums open to bacterial attack. Germs by the millions breed in it. And they, with tartar, are a chief cause of pyorrhea and decay.

Old ways won't clear it off

Ordinary dentifrices and cleansing won't fight film successfully. Feel for it now with your tongue. Note how your present cleansing method is failing in its duty.

Now new methods are being used. A dentifrice called Pepsodent—different in formula, action and effect from any other known.

Largely on dental advice, the world has turned to it.

Clears film off Firms the Gums

It accomplishes two important things at once: Removes that film, then firms the gums.

A few days' use will prove its power beyond all doubt. Send the coupon. Clip it now before you forget.

FILM the worst enemy to teeth

You can feel it with your tongue

THOMSON'S "Glove-Fitting" CORSETS

This Thomson "Kno-Lace" model is made of silk broche with a wide panel of elastic on either side to insure ease and comfort. Six hose supporters.

The Thomson "Hip-Confiner" is also made in silk broche with elastic inserts.

Fashion decrees a slender effect thru the hips. Thomson models, whether corset, girdle or ceinture, give just the necessary confinement, and yet leave an easy natural swing and delightful freedom to the body. The very simplicity of every Thomson model is its chief feature and attraction. They offer youthfulness and charm without question.

If the models illustrated do not exactly meet your requirements, insist upon seeing one of the many other Thomson "Glove-Fitting" models—there is a style exactly suited to your particular needs.
