## **Black Rhino Born at Milwaukee County Zoo**

A male black rhino was born at the Milwaukee County Zoo, Wisconsin, on 22 October 1998. Its birth weight was 97 pounds. This is the third birth for the 17-year-old mother. The zoo's male rhino fathered all three offspring. The newborn rhino will remain at the zoo for about a year and then be sent to a zoo participating in the AZA Black Rhino SSP. *J. Diliberti*

**Need the response  
that will increase  
your membership?**

Let DMC, Inc. **DEFINE** your zoo/aquarium target market, **CREATE** motivating campaigns that generate response and membership retention, **PRODUCE** your zoo/aquarium media formats and **ANALYZE** and track all aspects of your membership campaigns to determine results.
