days."

King's "Bag" in Nepal.

Bangalore, Jan. 18.

Trophies of the King's shoot in Nepal have arrived at Mysore in 39 cases, in charge of Mr. C. Theobald of Theobald Brothers, taxidermists, who was specially employed on the field to preserve skins and masks, and he is satisfied that the curing and mounting will be a success. Before the camp broke up the King presented him personally with a gold scarf pin set with diamonds and complimented him on the success of his camp work. The list includes 39 tigers, 4 bears, and several rhino, all of which have arrived in excellent condition.
