Fliegenpilz had to also stop their 2008 tour due to bad business. Lars and most animals are on the road with the Circus Probst also in Germany now.

Circus Fliegenpilz has one of the largest traveling zoo in Europe (and think also in the world). Lars works with Elephants (African+Asians), rhino, giraffe, zebras, hippo, camels, horses, antelopes, cows (exotics+domestics), pigs, goats, sea lions. But no cats :P

RJR - - -A posting to the Buckles blog on May 8, 2007 said the Fliegenpilz rhino had come from Circus Alberto Althoff. In 1990 Flavio Togni told me that there was then a male white rhino with Circus Alberto Althoff of Holland
