

A RHINOCEROS AT HOME

This fine study of the Great Indian Rhinoceros by H. E. Tyndale is one of the many outstanding photographs to be seen at the second International Exhibition of Wild Life Photography, organised by COUNTRY LIFE, which will be opened by Field-Marshal Viscount Alanbrooke at the Central Hall, Westminster, at 3 p.m. on March 20. It will remain open from 10 a.m. to 9 p.m. (except on Sunday) until April 1. World-famous naturalists will give two illustrated lectures daily
