Jakarta Selatan

Authorship:

Reporting provided by Sumatran Protection Manager (Mr. Arief Rubianto) and Javan Protection Manager (Mr. M. Waladi Isnan).

Material and information gathered from field reports and associated documents.

Executive Summary:

The decline in number of Sumatran and Javan rhino had been in process for a long period of time remains to be our warning in this quarter. The Javan rhino for example was eliminated from Malaysia in the 1930's. Meanwhile, following the Sumatran rhino PHVA (1993) indicated that the decline of Sumatran rhino is probably 50% during the last decade. The total population of Sumatran rhino in Indonesia during the previous decades was estimated 215 – 319 and at the present is estimated not more than 200 animals, it will be extinct for the next decade if there is no appropriate, bold and serious management (Strategy and Action Plan for the Conservation of Rhinos in Indonesia 2007 – 2017 , however based on occupancy evaluation the SRCS, Singapore 2013, suggested that not more than 100). Rhino decline in South East Asia is due to a combination of reduction in habitat and over exploitation of rhino (most recently by poachers after the horn). At this time, wildlife poaching pressure continues to be high in Indonesia, there is a strong need of this country to continue emphasize anti-poaching activities.. In respond to this the rhino protection program of Yayasan Badak Indonesia (YABI) that has been activated to answer the need. Rhinoceros is subjected to poaching pressure both from hunters and from

trappers, they use fire arms, wire snares, and other trap, and to collect evidence to identify and apprehend the suspect involved. While in support to the field patrol, intelligence activities is operated to assist in the apprehension of poachers and identify the routes of illegal trade of protected animal parts. (horn, skin, hooves etc.).

The Indonesian Rhino Protection Program of YABI integrates partners of governmental and non-governmental namely Directorate General of Forest Protection and Nature Conservation of the Ministry of Forestry, International Rhino Foundation and World Wide Fund for Nature as well as local villagers . The program entails series of approaches that include: wild population protection by intensive patrolling of areas to detect traps and arrest intruders, more intensive and extensive surveys and monitor of the rhino population, and intelligence operations to assist in the apprehension of poachers, and identify of routes used for illegal trade, and establishment of rhino database system using the Geographic Information System (GIS) techniques, and to a limited scale conducting community development to some villages fringing the national parks.

The Indonesian Rhino Conservation Program (originated from GEF Project and has merged into YABI) fully understood that the program is very costly. But, it is important to bring an understanding that the operation of Rhino Protection Units (RPU) backed-up by Intelligence and Law Enforcement Unit (ILEU) is the most effective measure in protection of rhinos in the wild. Therefore it is important in securing a simultaneously funding plan for sustainability of rhino conservation program.

Introduction

Although RPU operations in the BBS, Way Kambas, and Ujung Kulon National Parks has been able to protect the remaining population by activating rhino patrol and strengthening its anti-poaching activities and is able to reduce rhino poaching activities and habitat destruction to the point of elimination. While rhino poaching evidence was not found during this quarter, poaching signs of other wildlife such as mouse deer traps, bird traps, as well as poaching for marine resources (crabs, langusts, clams, etc.), and usage of poison for poaching fish were still occurring.

Saving the remaining rhino population as viable nucleus populations of Sumatran and Javan Rhino requires series of protections covering establishment, supporting management, coordination, and supervisory structure. efforts.

In this quarter YABI, due to shortage of funding, 16 RPUs: Bukit Barisan Selatan (7 RPUs), Way Kambas (5 RPUs) and Ujung Kulon National Parks(4 RPUs) .

Objectives

The objective of the Program is to contribute to the long-term viable conservation and management of Indonesian rhino (the Javan rhino – *Rhinoceros sondaicus*, and the Sumatran rhino – *Dicerorhinus sumatrensis*) as well as their habitats in Java and Sumatra.

The Indonesian Rhino Protection Program of YABI is itself addressed to support the capabilities of the Directorate General of Protection and Nature Conservation with its associated wildlife agencies in arresting and reversing the decline of rhinoceros due to poacher activities and habitat disturbances toward the national and global goal of recovery of viable populations of rhino species in Indonesia.

Output

1. Establishment and operate of at least 16 Rhino Protection Units (RPU) in Sumatra and Java.
2. Establishment and operate Intelligence and Law Enforcement Unit to support law enforcement process which is undertaken by RPU and Park authority or proceed to identify information of threats from ILEU's informants for further judicial process. .
3. Community facilitation for better livelihood and to reduce threats from surrounding community.

Progress

The Rhino Protection Program of YABI provides protection for viable nucleus populations of Sumatran and Javan Rhinos from poaching and habitat disturbance through the establishment and operation of Rhino Protection Units (RPU), and supporting management, coordination and supervisory structures. The outcome of operations of 7 RPU in Bukit Barisan Selatan National Park (BBS NP), 5 RPU in Way Kambas National Park (WK NP) and 4 RPU in Ujung Kulon National (UK NP) is reported as seen in Annex 1 . (*RPU's Activities Report Periode July – September 2014.*), as per attached.

The achievements of the Protection Program for this period is described below in *Annex 1*.

Records on illegal killing of animal and other forest offences detected by both RPU (BBS, WK and UK) and ILEU is shown in *Annex 2*.

The field days per month of RPU's personnel is shown in Annex-1.

Intelligence and Law Enforcement Unit (ILEU) has been operating to identify the threats which come from surrounding people or outside of the Park; its operations also covers identifying possible community development facilitations for raising local's alternative income in order to reduce threats to the park and its rhinos . There are 3 personnels in this unit that have to work in collaboration with informants, RPU, Park Rangers and the Police. In the case that they have confirmed information of a case they coordinate with the RPU and relevant enforcement institutions to apprehend the suspect/s for further law enforcement efforts. Although ILEU's is

based in BBS , they are available to assist ILEU operations in both WK and UK NPs.

ILEU's findings of their activities as well as its activities together with RPU BBS findings, is reported in Annex-2,

General performance and Recommendations

In this period, the average number of field days per month for every RPU member in all areas was lower than what is required by the Program (less than 20 days/month).

Resume of Q3 2014 RPU Report :

1. General Performance Parameter

	BBS	WK	UK
Number of general activities	43	46	10
Number of Patrol and Surveys	20	41	10
Distance Walked (Kilometers)	1.784,15	1.197.20	673.664
Distance Walked for Patrol and Survey	1.250,33	1.197.20	673.664
Number of Field Days	1.063	1057	855
Number of Field Days for Patrol and Survey	589	995	855
Field Days per-person per-month	12,65	16.78	17.81

2. Basic Population Parameter

	Number of Footprints	Number of Locations with rhino signs					
		Foot prints	Wallows	Feces	Feeding	Other Signs*	Direct Sighting
BBS	0	0	3	0	0	0	0
WK	7	5	6	12	2	3	0
UK	17	34	0	1	8	1	0

3. Illegal Activities Encountered

	Gaharu * Theft	Encroachment	Timber Theft	Forest Product Theft	Illegal Hunting		
					Rhino / Trap	Non Rhino (Mammals)	Other
BBS	0	5	16	0	0	6	13
WK	1	25	3	0	0	5	4
UK	-	3	0	0	0	0	38

4. Highlights

BBS	WK	UK
• Confiscate several location of illegal logging. • Identified of elephant ivory pipe traders. • Identified of active encroachment location. • SMART database format for all Sumatra. • TOR of Camera trap standard method for rhino survey. • Support Community program to minimize impact of human-tiger conflict	• Detected of 3 elephant bones • Video of rhino from camera trap • Defeat of several poaching group activities • Detected of several location of forest fire • Destroyed 11 wire of deer trap	• 10 patrols on this period , there had been achieved 17.81 fielddays perperson per month. • Detected 3 illegal activities, there were 38 non mammal poaching (bird trapping, illegal fishing) .

During this Quarter, RPU BBS has operated mostly to patrol along the Park border, since the threats coming from human activities from surrounding area recently seem rising. There is a change in some key leaders in the BBS that requires time to coordination. They only able to achieve field-days 12,65 days per person per month as the result of their 20 patrols / surveys (of their total 43 activities). The other activities were mostly involving their contribution in the multi stakeholder programs facilitated by BBS NP.

During their patrols along the Park border, RPU detected poaching activities and succeeded to detect deer poaching, illegal logging, bird poaching and some active encroachment.

The patrol / survey, which achieving of 1.784,15 Km patrol route RPU BBS encountered 2 locations with signs of rhino.

Figure-1
RPU combats forest fire.

A total 40 cases of illegal activities were detected where 21 of those were illegal logging, and encroachment, and no rhino poaching signs. .

RPU WK has achieved field-days 16,78 days per person per month as the result of their 46 patrol / survey (out of their total 41 activities) which achieving 1.197.20 Km of field patrol , 7 location signs of rhino were found and recorded with no direct sighting of the rhino.

A total 38 cases of illegal activities were detected, where 3 of those were illegal logging and 5 of those were elephant and deer poaching.

During this period, the involvement of RPU of all areas were affected by Park Rangers activities that need to be supported which was resulted to a lower of field days of their patrol / survey. It should become a consideration for the next period arrangement with YABI's Regional Consultant (Head of National Park), who has the authority to synchronize the patrol between RPU and Park Rangers.

Figure-2. RPU, WWF, WCS and BBSNP practical to set up the camera trap.

Figure-3. RPU community program detected of tiger and human conflict.

RPU UK has achieved field-days 17.81 days per person per month as the result of their 10 patrol / survey as their total activities, which achieving 673 Km patrol route. 61 independent signs of rhino were found and recorded with no direct sighting of the rhino .

A total of 41 cases of illegal activities were detected. The major cases encountered were non mammals poaching (bird, fish/shrimps).

Figure-4. Illegal fishing equipment in Ujung Kulon NP

In this Quarter, YABI in collaboration with WWF Indonesia had built a wooden boat for RPU UK

Figure-5. New RPU UK boat

Even though RPU is keeping active there were no rhino snare found by RPU , there are still many illegal activities that pressurize the rhino protection efforts there fore we are always be alarmed.

There is a need to maintain the effectiveness of patrol by national park supported by RPU under coordination of the Authority (Head of National Park).

The Program had found many rhino footprints in this Q3 period but it can not be utilized to determine the number of rhino. It is still to be analyze with the sophisticated method.

YAYASAN BADAQ INDONESIA - YABI
Rhino Foundation of Indonesia – RFI

ANNEX 1.

QUARTERLY ACTIVITY

AND PERFORMANCE REPORT

01 July – 30 September 2014
(Q3)

BUKIT BARISAN SELATAN

NATIONAL PARK

Highlights :

- Confiscate several location of illegal logging.
- Identified of elephant ivory pipe traders.
- Identified of active encroachment location.
- SMART database format for all Sumatra.
- TOR of Camera trap standard method for rhino survey.
- Support Community program to minimize impact of human-tiger conflict

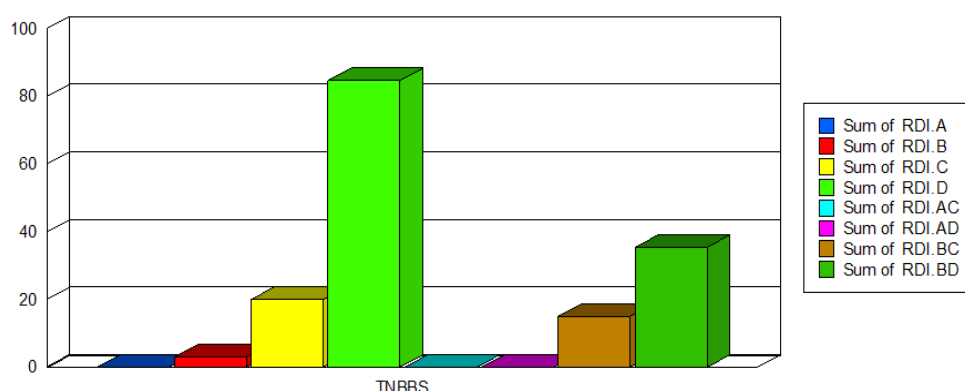

BASIC POPULATION PARAMETERS

Number of Footprints	Number of Locations with rhino signs					
	Footprints	Wallows	Feces	Feeding	Other Signs*	Direct Sighting
0	0	3	0	0	0	0

* Include Urine, Scratches, Rubs.

During the 20 patrols/ surveys in this period, no signs of footprint rhino were found and no direct sighting of the rhino. Just sign of wallow rhino (3 sign).

RHINO DENSITY INDICATORS

Rhino		RPU Field Presence		Density Indicators			
A	B	C	D	A/C	A/D	B/C	B/D
Number of print locations	Number of Rhino Signs*	Field Days**	Distance Walked** *	Rhino prints/ 100 days	Rhino prints/ 1000 km	Rhino signs/ 100 days	Rhino signs/ 1000 km
0	3	20	84.68	0.00	0.00	15.00	35.43

* The total number of sign (excluding footprints) of rhino found. ** Total number of RPU group field days. (Footprints are not included, because the number provided in the table is the number of individual footprints and not the number of seprate tracks).

ILLEGAL ACTIVITIES ENCOUNTERED

Gaharu * Theft	Encroachment	Timber Theft	Forest Product Theft	Illegal Hunting		
				Rhino / Trap	Non Rhino (Mammals)	Other
0	5	16	0	0	6	13

* Gaharu (a component for incense) theft is listed separately, because it is a major threat in any forest in Indonesia

In BBS, during the surveys and patrols a total of 40 cases of illegal activities were detected. The major case encountered was timber theft.
No trap of rhino encountered, we sign 6 illegal hunting Non Rhino (Mammals).

Record of cases as per what is attached in Annex – 2, which includes: date of incidence, date of detection, type of offences, place of occurrence, evidence (forest / wildlife produces recovered, Arms / other evidence, suspects, legal status and comments).

GENERAL PERFORMANCE PARAMETERS

Number of general activities	43
Number of Patrol and Surveys	20
Distance Walked (Kilometers)	1.784,15
Distance Walked for Patrol and Survey	1.250,33
Number of Field Days	1.063
Number of Field Days for Patrol and Survey	589
Field Days per-person per-month	12,65

A total of 43 activities were conducted during this quarter (July – September) of the year and among of them 20 activities were patrol/surveys, which covering 1.784.15 Km and field-days 12.65 days per person per month. Out of their patrol activity, they involve in collaborative activities with The Park Administration on collaborative operation to remove encroachment.

PROGRAM PERSONNEL

(Summary of Field Days Per-Person Per-Month 01 July – 30 September 2014)

Personnel	Days	Average	
		Field days / month	
Agung Setiono	60	20,00	3 (month)
Agus Sulaeman	43	14,33	3 (month)
Bahara	46	15,33	3 (month)
Budiono	47	15,67	3 (month)

WAY KAMBAS NATIONAL PARK

Highlights:

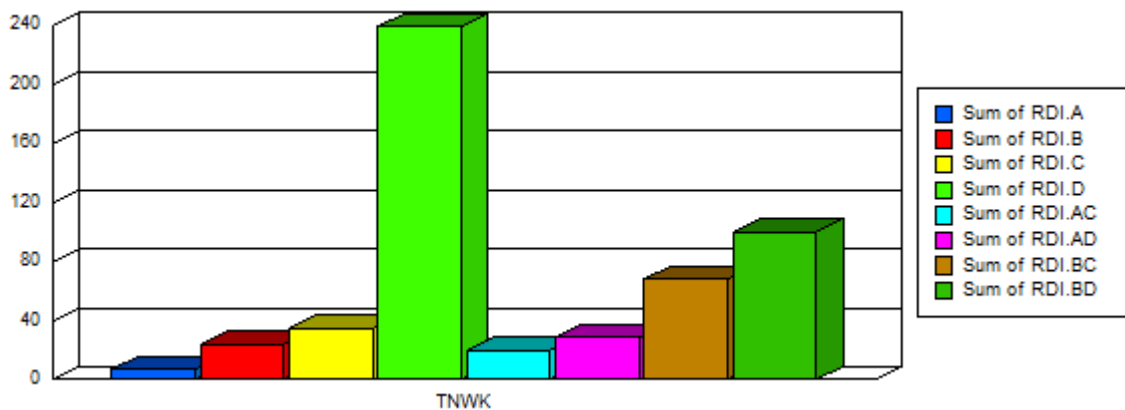

- Detected of 3 elephant bones
- Video of rhino from camera trap
- Defeat of several poaching group activities
- Detected of several location of forest fire
- Destroyed 11 wire of deer trap

BASIC POPULATION PARAMETERS

Number of Footprints	Number of Locations with rhino signs					
	Footprints	Wallows	Feces	Feeding	Other Signs*	Direct Sighting
7	5	6	12	2	3	0

* Include Urine, Scratches, Rubs.

RHINO DENSITY INDICATORS

Rhino		RPU Field Presence		Density Indicators			
A	B	C	D	A/C	A/D	B/C	B/D
Number of print locations	Number of Rhino Signs*	Field Days**	Distance Walked** *	Rhino prints/ 100 days	Rhino prints/ 1000 km	Rhino signs/ 100 days	Rhino signs/ 1000 km
7	24	35	239,91	20,00	29,18	68,57	100,04

* The total number of sign (excluding footprints) of rhino found. ** Total number of RPU group field days. (Footprints are not included, because the number provided in the table is the number of individual footprints and not the number of seprate tracks).

ILLEGAL ACTIVITIES ENCOUNTERED

Gaharu * Theft	Encroachment	Timber Theft	Forest Product Theft	Illegal Hunting		
				Rhino / Trap	Non Rhino (Mammals)	Other
1	25	3	0	0	5	4

* Gaharu (a component for incense) theft is listed separately, because it is a major threat in any forest in Indonesia

In Way Kambas NP, during the surveys and patrols a total of 38 cases of illegal activities were encountered. The major case encountered was encroachment. Record of cases as per what is attached in Annex – 2, which includes : date of incidence, date of detection, type of offences, place of occurrence, evidence (forest / wildlife produces recovered, Arms / other evidence, suspects, legal status and comments.

UJUNG KULON NATIONAL PARK

Highlights :

- 10 patrols on this period , there had been achieved 17.81 fielddays perperson per month.
- Detected 3 illegal activities, there were 38 non mammal poaching (bird trapping, illegal fishing) .

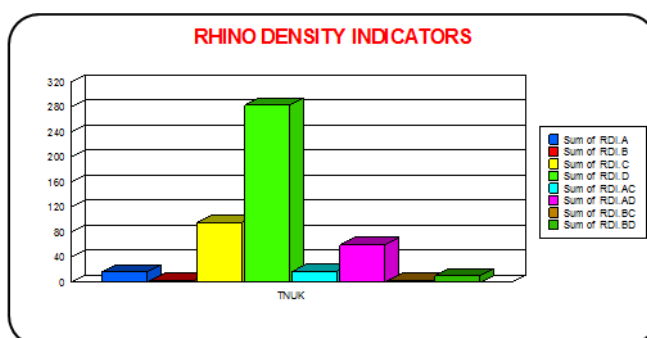

BASIC POPULATION PARAMETERS

No. Of Case Footprint Encountered	Number of Footprints / Tapak	Wallow/ Kubangan	Feces/ Kotoran	Food/ Pakan	Other Signs/ Lain	Direct Sighting/ Lain
17	34	0	1	8	1	0

* Include Urine, Scratches, Rub

During the 10 patrols/ surveys in this period, 61 independent signs of rhino were found and no direct sighting of rhino.

RHINO DENSITY INDICATORS

Rhino		RPU Field Presence		Density Indicators			
A	B*	C	D	A/C	A/D	B/C	B/D
Number of print locations	Number of Rhino Signs*	Field Days**	Distance Walked (km)	Rhino prints/ 100 days	Rhino prints/ 1000 km	Rhino signs/ 100 days	Rhino signs/ 1000 km
17	3	96	283.08	17.71	60.05	3.12	10.16

(B*) The total number of sign (excluding footprints) of rhino found. ** Total number of RPU group field days during surveys only (excluding other activities). *** Total number of range in kilometer covered by RPU group during surveys activity.

ILLEGAL ACTIVITIES ENCOUNTERED

Encroachment	Timber Theft	Forest Product Theft	Illegal Hunting		
			Rhino / Trap	Non Rhino (Mammals)	Other
3	0	0	0	0	38

This period in UK, during the surveys and patrols a total of 41 cases of illegal activities were detected. The major case encountered were Non mammals hunting (bird, fish/shrimps). No trap of rhino encountered.

Pulau Pecang, Cidaon, Nyawaan, Nyiur, Legon Waru, Jamang, Citelang, Cikarang, P.Handeuleum	patrol / survey	05/09/2014	25/09/2014	21	4	37,740 00168	Detected illegal activities

GENERAL PERFORMANCE PARAMETERS

Number of general activities	10
Number of Patrol and Surveys	10
Distance Walked (Kilometers)	673.664
Distance Walked for Patrol and Survey (Km)	673.664
Number of Field Days	855
Number of Field Days for Patrol and Survey	855
Field Days per-person per-month	17.81

A total of 10 activities were patrol/surveys, which covering 673.664 km and field-days per-person per month 17.81 days.

PROGRAM PERSONNEL

Summary of Field Days Per-Person Per-Month 01 July – 30 September 2014

Personnel	Days	Field days	Month
Acep Supriatna	60	20.00	(3 Month)
Andri Duriat	60	20.00	(3 Month)
Diding	39	19.50	(2 Month)
Edi	60	20.00	(3 Month)
Eli Yuswanto	39	19.50	(2 Month)
Endin	60	20.00	(3 Month)
Hadimi	21	21.00	(1Month)
Haerudin	39	19.50	(2 Month)
Jajat Sudrajat	60	20.00	(3 Month)
Mulyani	60	20.00	(3 Month)
Sorhim	60	20.00	(3 Month)
Sukardiman	60	20.00	(3 Month)
Sunardi	57	28.50	(2 Month)
Tisno	60	20.00	(3 Month)
Ujang Sukri	60	20.00	(3 Month)
Yadi Suryana	60	20.00	(3 Month)

OTHER PERSONNELS :

Dendin Martin	Field Coordinator
Yusep Hardiana	Administrative and Finance Officer
Olis	Boat Driver
Samaun	Staff Boat
Odah	Cook
Saiful	Office boy

Note:

*: Agustus 2014

** : Team RPU Agustus 2014, Before team he is staff boat

**ANNEX-2 : OFFENSES OR ILLEGAL ACTIVITIES ENCOUNTERED DURING Q3 2014
(JULY–SEPTEMBER 2014).**
1. OFFENSES IN BUKIT BARISAN SELATAN NP

Date	Remarks	Age	Location	Action Taken Legal status / comments
	• Type of offences • Forest/WL produce recovered • Arm / amunition recovered • People arrested			
04/07/2014	Detected poaching by air gun	< 1 month	Tebing rambutan, Nasal	Documented
08/07/2014	Detected illegal logging activities	< 1 month	Sukajaya	Documented
17/07/2014	Detected illegal logging activities	< 1 day	Desa sukajaya, kec.nasal	Destroyed
18/07/2014	Detected bird trap	< 1 month	Hulu way bamban	Documented
19/07/2014	Detected illegal logging activities	< 1 month	Talang muslim, Merpas	Destroyed
19/07/2014	Detected illegal logging 27 pieces	< 1 month	Talang muslim, Merpas	Destroyed
19/07/2014	Detected illegal logging activities 220 pieces	< 1 month	Talang muslim, Merpas	Destroyed
19/07/2014	Detected 1 unit chinsaw	< 1 month	Talang muslim, Merpas	Destroyed
19/07/2014	Detected Camp of bird poaching	< 1 month	way ngaras	Destroyed
19/07/2014	Detected net of bird poaching	< 1 week	way ngaras	Destroyed
19/07/2014	Detected net of bird poaching	< 1 week	Hulu way tembulih	Destroyed
20/07/2014	Detected sings of bird poaching	< 1 week	Hulu Way Tembulih	Documented
21/07/2014	Detected net of bird poaching	< 1 week	Hulu way tembulih	Destroyed
22/07/2014	Detected net of bird poaching	< 1 week	Hulu way tembulih	Destroyed
22/07/2014	Detected net of bird poaching	< 1 week	Hulu way ngaras	Destroyed
23/07/2014	Detected camp of bird poaching	< 1 month	Batas tnbbbs	Destroyed
26/07/2014	Detected of illegal activity	< 1 day	Bamban	Documented
12/08/2014	Detected of encroachment area	< 1 month	Kaur kandang-suoh	Documented
13/08/2014	Detected of encroachment area	< 1 month	Malang-suoh	Documented
22/08/2014	Detected camp of deer poaching	< 6 month	Hulu air nasal kiri	Documented
23/08/2014	Detected camp of deer poaching	< 6 month	Hulu air nasal kiri	Documented
23/08/2014	Detected camp of deer poaching	< 6 month	Hulu air sambat kanan	Documented
24/08/2014	Detected of illegal logging 74 pieces	< 1 month	Talang kimal, Bukit makmur	Destroyed
24/08/2014	Detected of illegal logging 48 pieces	< 1 month	Talang kimal	Destroyed
