The 2nd Quarter Report of Headquarter YABI

Period April - June 2016

A. Program Highlight/Accomplishments

(Reported by Shanty Maullydianthi and Nasrul Ikham)

1. Meetings and Coordination

Displacement of Sumatran rhino 'Najaq' in Borneo

On April 4th, 2016 WR attended the meeting in the Ministry of Environment and Forestry Manggala Wanabakti, Jakarta on translocation plan of Sumatran rhino 'Najaq' to Kelian. Director KKH, WWF, and others agreed to the opinion of YABI translocation should be delayed until Najaq really show an healthy condition.

Dissemination discussion meeting of Sumatran rhino in TNBBS

WR, MH, YH, DDS held a meeting with WWF members Mr. Arnaud Lyet and Mr. Yuyun Kurniawan in HQ Office Bogor on April 13th, 2016 to discuss:

- Follow-up meeting of discussion on spatial distribution Sumatran rhino in TNBBS based on results of dung DNA analysis.
- DNA analysis from 36 fecal samples collected in 2013 (Batch 3) in TNBBS, reveals that only 10 samples gave a positive result of presence of Sumatran rhino DNA. Nevertheless, it should be understood that samples that does not contain DNA of rhino does not mean that rhino was not exist in the region. This is related to difficulty of collecting it and the low quality of the fecal samples.
- Results of plotting data distribution based on the Sumatran rhino dung DNA analysis showed that distribution of the Sumatran rhino is concentrated only in in narrow areas within the IPZ region.
- Some of the results of analysis of stool samples collected in TNBBS since the year 2011 - 2013, showed presence of DNA of other animals (mostly tapir). Therefore, reference is required to ensure tapir DNA and distinguish results of the analysis of stool samples of both species.

There will be a meeting (sort FGD) of the Sumatran rhino in May or June, is expected YABI can gather all findings signs of the Sumatran rhino tread especially for the last 3 years equipped with photo findings (documentation).

Indonesian YABI Board Meeting for discussion of Sumatran rhino rescue in Borneo

Indonesian board of trustee meeting on Saturday, April 16th, 2016 in Hatsu Tei Restarant Bogor. The meeting was attended by Prof Dr. Hadi S. Alikodra M.S, Drs. Effendy A. Sumardja M.Sc, and Dr. Muhammad Agil. WR, WI, SM, MH and YAW from member of YABI Management.

Agenda of the meeting: discussion on the recent death of 'Najaq' on April 5th, 2016 that had been captured by Sumatran Rhino Rescue team based on Decree (SK) the General Director KSDAE Number : SK.300/KSDAE-KKH/2015 on March 12, 2016.

Result of the meeting as follow:

- The member of Board of Trustees are very proud of efforts that have been made by YABI in assisting the Government and WWF to save the Sumatran rhino in Borneo.

- Recognized the weaknesses that occur and then constructs a 'pattern rhino rescue' that includes the management of capture, manufacture of pitt-trap and boma, displacement, location and amenities, operations, etc.
- Preparing an expose for the next two weeks to save Sumatran rhino in Borneo. The materials should be consulted to Board of Trustee before be to all parties including the Joint Rhino Secretariat.

Preparatory meeting to exhibition and workshop the IUCN World Conservation Congress 2016 dated September 1st-10th, 2016 in Hawaii, United States

WI and KR attended a meeting of the Director KKH - KSDAE - on April 29th, 2016 at Gedung Manggala Wanabakti Jakarta to discuss preparation for exhibition and workshops in the IUCN World Conservation Congress 2016 on September 1st-10th, 2016 in Hawaii, USA. The IUCN event is considered to be good for promotion, collaboration, and awareness on the potentials what YABI have been doing for Indonesian rhinos conservation.

They were agreed to promote the four key species, namely; rhinos, elephants, tigers and orangutans, as well as promotion of NGOs and private sector activities in forest management resources and biodiversity conservation.

Headquarter weekly meeting

Headquarter weekly meeting on May 30th, 2016 in Office Bogor to listen of presentation by DDS regarding interpretation and review of Pathology reports by Drh. Lydia Tong on the Sumatran rhino 'Najaq' which has died in Borneo.

Cause of death rhinos 'Najaq' was acute renal failure and acute ulcer on her stomach. The condition is due to by three factors:

1. Dehydration (less liquid) - possibility of initially because of stress, so that reduced intake of drinking water and food.
2. Implementation of drugs anti-inflammatory (NSAIDs = Nonsteroidal anti-inflammatory drugs) which had been given from the beginning to the end of the period of captivity, including specific drug to cause stomach ulcers.
3. Stress (physiological stress) - Stress generally can be occurred in captured wild animals, although it is also possible that time delays of entering Najaq into boma, and limited size of boma can be a contributing factor to the death.

FGD the framework discussion Control techniques langkap controlling (arenga obtusifolia) in UKNP

On June 7th, 2016 at the Hotel Santika Bogor, WI attended WWF Indonesia Ujung Kulon Office's meeting invitation to follow up results of the Focus Group Discussion (FGD) on Langkap Control (Arenga obtusifolia) at peninsula of Ujung Kulon on October 15th, 2015. Discussion was on various technique of Langkap Control in Ujung Kulon National Park in order to develop SOP of langkap controlling outside peninsula of Ujungkulon outside of the JRSCA.

7. Publications Activities

Press conference of Sumatran rhinos 'Najaq''s death in Borneo

On April 6th, 2016 WR and NA attended a Press Conference held at Manggala Wanabakti Jakarta concerning the death of Najaq. Also attending Director KKH-KLHK and WWF Program Director of Sumatra and Borneo. It was to inform the suspect the Najaq's death was due to severe infections caused severe injuries to his left leg hit by snare since September 2015 and myopathic stress.

8. Workshops, Congress, and Celebration Day.

Farewell and welcoming of the Head of Ujung Kulon National Park

YABI Headquarter Staff attended farewell and welcoming ceremony of the Head and Section Heads of Ujung Kulon National Park (UKNP), from Dr. Ir. Moh. Haryono, M.Si to Dr. U. Mamat Rahmat, S.Hut, M.P on April 2nd, 2016 in UKNP Office, Labuan.

Ceremony begun with a prayer followed with a speech from Chair of committee, and then interspersed with entertainment in forms of typical traditional dances performance by Banten dancers. Forwarded speech from the Head of UKNP Mr. Haryono and then speech from the new Head of UKNP Mr. Rahmat, continued with position handover.

There are lots of entertainment presented, one of them is marawis attraction (beating tambourines with singing) brought by local women. Ending the event cwas souveneer giving among others from Executife Director of YABI to Dr. Haryono and group photos.

General discussion of the wildlife protection: All Creatures Great and Small) in @America Jakarta

YABI members, WR along with DDS, MS, YH, NI and NA attended general discussion on protection of wildlife in Indonesia, specially rhinos and slow loris. The event housed in @america, Pacific Place mall, Jakarta on Tuesday April 12th, 2016.

The event was implemented by support of some parties such as; Yayasan Badak Indonesia (YABI), Natural Initiation Rehabilitation Foundation Indonesia (YIARI), the American Embassy and also @america.

It was organized to inform wider audience concerning rhinos and loris. animals that should be protected.

The MC was Mr. Muhammad Farhan who is a famous presenter in Indonesia. Enlivened by the appearance of a presenter and singer Ms. Melanie Subono, who is also a member of "Friends of the Indonesian Environmental Forum" (WALHI).

The event begun with a welcome speech from a representatives of the American Embassy, Consulate General Surabaya, Mrs. Heather Variava., followed by a presentation by Mrs. Christine, representatives of

YIARI, who spoke about loris. After that Mr. Widodo Ramono as Executife Director of YABI convey a presentation related of rhino, specially Sumatran rhino.

WI explained that rhinos as we all know is the animal that is very endangered by extinction and is protected by Law No 5/90, the presence of other rhinos apart from two species of rhino in Indonesia, and the returned Sumatran rhino 'Harapan' to Indonesia. Sumatran rhino was not only found such as 'Najaq', unfortunately Najaq could not be saved, because of illness due to infection. This event then closed with a question and answer session.

International forest day commemoration at the Kepulauan Seribu

On April 14th, 2016 WR and MF attended celebration of International Forest Day (HHI) held by Ministry of Environment and Forestry in Pulau Karya, Kepulauan Seribu, Jakarta. The event was attended by the President R.I. and Minister of Environment and Forestry.

Through HHI, PBB member states are expected to promote the important role of forests and trees. HHI 2016 theme is "Forests and Water, Sustain Life and Livelihoods."

Indonesia is a country with tropical forest of the world's third largest after Brazil and Congo. The existence of Indonesian forests not only affect the environment of Indonesia, but also affect the global environment.

Therefore this should be reflected through HHI forest management policy, environmentally sound, balanced between conservation and economic support, including energy independence and food sovereignty for Indonesia's forests have a strategic role as a life-support system.

National seminar on management of foreign plant invasive species

WI attended a workshop on invasive species management organized by the Research and Development and Innovation Agency of the Ministry LHK on June 1st, 2016 at IPB Convention Center Botani Square Bogor.

The theme was "The management of invasive alien plant species in Indonesia: Opportunities and Challenges" where it discussed prevention on negative impacts of invasive foreign plant species in the tropical forests in Indonesia. It was held in form of oral presentations from keynote speaker, panel session, and poster presentation of some of research that has been conducted by FORIS Indonesia Project as well as from other institutions.

The week exhibition of environment and forestry in JCC Convention Hall Jakarta

Participation to the Ministry of Environment and Forestry of the Republic of Indonesia's Week of Environment and Forests in 2016 on June 9th-12th, 2016 at Jakarta Convention Centre (JCC) Hall A, Gatot Subroto, Jakarta. The event was opened by the Vice President Mr. Jusuf Kalla is a series of events to commemorate the World Environment Day of June 5th.

The Week of Environment and Forests in 2016 includes environmental management performance exhibition, seminars, talk shows, green music festival, eco driving rally, drawing, coloring, as well as race of child engineers. The event was attended by representatives from several provinces and companies related to environment and forestry.

YABI as the foundation which focused on rhino conservation in Indonesia, namely Javan rhino and Sumatran rhino participated the event, along with WCS Indonesia, WWF Indonesia and ZSL Indonesia. Through this event YABI wants to raise awareness of people on the plight and existence

of rhinos in Indonesia. YABI also introduced activities of the Rhino Protection Unit (RPU) and the operational of camera traps. It is hoped that public will be more aware and keeping well its surrounding environment, as well as living creatures therein.

Release of white starlings and reception of Sumatran tigers "Giring" in area of Taman Safari Indonesia

WR attended the invitation of Taman Safari Indonesia to discuss on its efforts to conserve the White Starling (*Sturnus melanopterus*) which is one of endemic bird species to Java and Bali Islands, and their existence is increasingly threatened by extinction. Taman Safari Indonesia held release of the White Starling and welcome the Sumatran Tiger "Giring" in the area of Taman Safari Indonesia on June 11th, 2016 at TSI Cisarua - Bogor.

Fasting break with YABI Board of Trustees (BoT)

In order to strengthen the relationship between YABI employees with the Board of Trustees, on June 27th YABI held an event of fasting break at Hotel Royal Pajajaran Bogor.

9. Monitoring and Evaluation

Independent evaluator for WWF project
