THE 2nd QUARTER REPORT of HEADQUARTER ACTIVITIES

PERIOD APRIL-JUNE 2017

A. Program Highlight/Accomplishments

1. Meetings and Coordination

- **Preparation meeting of Sumatran rhino campaign**

On April 3rd, 2017 YABI team that consist of Muhammad Hanif (MH) as IRF Liaison, Nuke Arincy (NA) as YABI Infocom and Ane Afteryana (AA) as Assistant Manager RPU Sumatera had a meeting with the Ogilvy team to discuss the guidelines for the Sumatran Rhino campaign. The consortium of sumatran rhino consist of YABI, WWF, WCS, FKL, LIF and IRF. This consortium will coordinate and manage various activities to promote public awareness in term of Sumatran rhino conservation. This consortium will use social media such as Facebook, twitter and instagram to communicate with people about sumatran rhino activities. Furthermore, through social media, there will be planned to create a live campaign activity. The information about sumatran rhino will come from all members of the consortium. The Ogilvy team will share all information as well as material through email and google drive.

- **Board of Trustees consultation meeting in HQ Office Bogor**

The management and the board of trustees of YABI had a consultation meeting at Headquarters Office Bogor on April 9th, 2017. The meeting was conducted as a follow up to a previous meeting on March 12th, 2017 to discuss re-structure and determine the competency of personnel in each position at YABI. In addition, this meeting had discussed new structure of management YABI.

- **Consultation meeting with The Secretary General The Ministry of LHK in Jakarta to discuss about 1st birthday celebration of Delilah and rhino campaign**

On May 8th, 2017, Widodo Ramono as Execurive Director of YABI and Nuke Arincy made an official trip to the Ministry of Forestry in Jakarta in order to deliver a letter from YABI to the Minister of LHK on the planned of 1st birthday celebration of Delilah which will be held at SRS TNWK on May 12th, 2017, and

press conference to introduce the rhino team and Delillah birthday celebration (campaign #kado for Delillah) which will be held in Manggala Wanabhakti on May 16th, 2017. In addition, also to consult with the Ministry of Forestry Public Relations section to support the event / activity intended.

- **Board of Trustees consultation meeting in Synthesis Jakarta**

The management and the board of trustees of YABI conducted a consultation meeting at Synthesis Jakarta on May 16th, 2017. The meeting was conducted as a follow up of a previous meeting on April 9th, 2017 to discuss proposed of changes to organizational structure by adding Mr. Pudja Utama becomes the Deputy Director and succession of the Executive Director of YABI in the future, change the composition of the Board of Trustees and Supervisory, and add the Advisory Board to assist YABI in expansion of organization for better future.

- **YABI internal meeting in Labuan Pandeglang**

Coordination Meeting of RPU, JRSCA and HQ at Hotel Kharisma Labuan Banten that have attended by some members of RPU BBS, WK, UK and JRSCA.

The meeting was discussed in term of the activities of RPU BBS, WK, UK and JRSCA in 2016. Furthermore, Pak WR as ED of YABI has delivered general the results meeting of board of trustees on May 16th, 2017, such as:

- There is no refusal from the board of trustees, on 2016 Accountability Report.
- The dissemination of rhino in Bukit Barisan Selatan and Gunung Leuser is very low, so it needs translocation.
- RPU must improve their quality and must be able to identify rhino footprint correctly. There are many questions in terms of rhino and tapir footprint that RPU found at the field.
- Receive questions and inputs from each field including vehicle condition and personal use (uniform and equipment), do not be late.

- **Meeting with field coordinator RPU WK, SRS expansion contractor, and preparatory meeting of the President of RI visits**

WR accompanied by Deddy Wardhana (DW) had a trip to Lampung with some activities :

1. Had a meeting with field coordinator RPU WK to discuss about making camp D1 in order to welcome the arrival of CEO Taronga.

2. Had a meetings with SRS expansion contractors.
3. Attending an invitation from the Secretary of the Province of Lampung to discuss the preparation of the visit of the President of the Republic of Indonesia to Way Kambas National Park (TNWK) Lampung Province.

2. Discussion

- **Rhino translocation discussion**

On April 12th, 2017 Dadan Dani Subrata (DDS) and Yusep Hardiana (YH) have attended he discussion on rhino translocation and new applications related to data analysis located at Resort CICO Bogor that managed by WWF Indonesia. Some points discussion :

1. Non-space retrieval
2. Closed Population
3. Open Population
4. Spatial Capture
5. Closed population
6. Open Population
7. Analysis of residents' liabilities

- **FGD Model of Innovative Funding for Conservation Area Management**

AKR and Haeruddin Sadjudin (HS), represent YABI attended Focus Group Discussion (FGD) of Innovative Funding Model for Conservation Area Management on May 16th, 2017 at Akmani Hotel Jakarta. The result of meeting are:

1. Conservation funds from the APBN only under \$ 5 every ha/ year, so the concerns are needed, a mechanism for increasing conservation area management funds is needed.
2. - Most partner activities sometimes are not met the expected results.
3. There are requirment of cost standardization to implement of the planning mechanisms for conservation area management activities. For instance, safeguards and animal inventory so that there is uniformity / similarity.
4. One source of financing is from private entrepreneurs engaged in the utilization of services and environment as an example; Natural travel permit or concession, PNPB.
5. Build partnerships with local governments so as to contribute in improving the management of conservation areas with sources of funds APBD / Cooperation with other parties.

- **Discussion Forum 'Sumatran Tiger Conservation Efforts in Indonesia'**

HS on behalf ED of YABI has attended the Discussion Forum of 'Sumatran Tiger Conservation Efforts in Indonesia', which held by the ARSARI Djojohadikusumo Foundation through Lembaga Konservasi Khusus Pusat Rehabilitasi Harimau Sumatera Dharmasraya (PR-HSD) on 22 May 2017 at Galeri Cemara 6, Jakarta.

The discussion was to brainstorm and share experiences in improving rescue efforts, rehabilitation and release of Sumatran Tiger.

3. Official Travel

- **Safari Ramadhan to field**

Concerning to celebrate of the Idul Fitri, DE of YABI was accompanied by several staffs had a trip ('Safari Ramadhan' trip) to RPU BBS NP, RPU & SRS WK NP on June 13th - 15th and to RPU & JRSCA UK NP on June 19th - 20th 2017. The purpose of Safari Ramadhan was to deliver some gifts to field staff and also to give appreciation and thanks for performance that has been done. This Safari Ramadhan can be beneficial to increase performance of field staffs.

In addition, there was a coordination meetings among RPU Manager Sumatera, Field Coordinator as well as RPU members in field in terms of patrol activities. For instance, ranging from problems, successes, operational needs and included discussing RPU's ability to distinguish rhino and tapir footprints.

4. Training and Program Activities

- **Communication training at RPU WK NP Lampung**

Communication training was held on April 21st, 2017 at Mess of Assistant Manager RPU Sumatera, WK NP Lampung with material subject is 'Teamwork & Leadership'. The training followed by 31 participants consist of Infocom Officer, Assistants Manager RPU Sumatera, management representatives of RPU & SRS WKNP and RPU BBSNP.

Participants of this training basically have practical knowledge of field on teamwork and leadership materials. However, through this training, trainees were able to obtain additional material and experience-based examples and inputs to solve problems of teamwork and leadership from the facilitator. Participants gain effective and efficient sharing of materials and examples of communication in a team, how to build teamwork, collaboration, coordination, tolerance, empathy and togetherness of vision in work. In addition, the participants also get the deepening of materials and examples of building effective leadership through the characters and motivations that fit the vision, values, and mission of the organization.

5. Partnership and Collaboration

- **Proposal presentation for fundraising in PT. Idemintsu Jakarta**

On April 5th, 2017 DDS, AA and NA have visited PT. Idemintsu in Jakarta to attend a meeting on a joint proposal for fundraising the restoration of Sumatran rhinoceros habitat in Way Kambas National Park. The presentation was initiated by introducing the profile of Yayasan Badak Indonesia then followed by presentation of cooperation proposal. After the presentation, a discussion about the proposal was held.

- **The Joint Secretariat meeting in Jakarta, to discuss cooperation between Indonesia & Malaysia governments**

WR as ED YABI attended the Joint Secretariat meeting held by KKH KSDAE on May 5th, 2017 at Manggala Wanabakti Building, Jakarta, to discuss cooperation between the Indonesian and Malaysian governments. The formulation of the meeting result as follows:

1. Responding to a letter from the Government of Malaysia, in principle agreed to immediately hold a meeting; discussing the conservation of the Sumatran rhino between the Government of Indonesia and the Government of Malaysia.
2. Need to be prepared immediately; ToR (assisted by Joint Secretariat, Indonesian Rhino) as attachment letter of response from LHK Minister to Government of Malaysia.
3. The meeting is preceded by an expert meeting between the two countries followed by a bilateral meeting (technical level). Both meetings are planned in September 2017.
4. There will be a meeting of Indonesian experts in the field of reproductive technology to prepare Indonesia's position in bilateral meetings. It is planned for May 19, 2017 in Jakarta.
5. Proposals from the Indonesian side:
 - a. Sperm exchanged from both sides, Indonesia and Malaysia.
 - b. If there is success in the IVF program, there will be a fair division of the embryo.
 - c. Embryo transfer of IVF results should be done on Sumatran rhino of Indonesia.
 - d. Indonesia will conduct artificial insemination using sperm from Malaysian rhino.
 - e. Equality in expert engagement.
 - f. The financing of the cooperation shall be borne by both parties in accordance with their respective activities and interests.

6. Prepare positions related to the clause; *Material Transfer Agreement, Intellectual Property Rights, Genetic Resources, Financial Arrangement, etc.*

- **Meeting preparation for translocation of the Sumatran rhino**

WWF held a preparatory meeting for the workshop for the translocation of the Sumatran Rhinos, which is held on May 17th -19th, 2017, at Salak the Heritage on May 4th - 5th, 2017 with the following meeting agenda:

1. Finalization of standard draft of the implementation of capture and translocation of Javan rhino and Sumatran rhino into a final document of reference for the implementation of capture and translocation.
2. Preparing description, capture and translocation team of Indonesian rhino which will be delivered in international workshop.
3. Establish the understanding between the rhino conservation activist in Indonesia especially related to the conservation of Sumatran rhino in Indonesia.

- **Invitations to socialize access to genetic resources and benefit sharing for research**

In order to raise awareness and concern of the importance of managing genetic resources for sustainable national development as well as improving the implementation of the Nagoya Protocol, the Directorate of KKH - KSDAE of the Ministry of Environment and Forestry organized a socialization of 'access procedures on genetic resources and profit sharing for research' on May 16th, 2017 at Hotel 101, Bogor. DDS representing the ED of YABI attended the event.

The results of the socialization are as follows:

1. KSDAE is revising Law no. 5 of 1990 on the Conservation of Biological Resources and Ecosystems and one of the changes is to include issues related to the utilization of SDG (Genetic Resources).
2. Indonesia has ratified Nagoya protocol based on Law no. 11 of 2013 on access to SDG and fair and equitable benefit sharing arising from its utilization of biodiversity conventions.
3. Indonesia has ratified Nagoya protocol based on Law no. 11 of 2013 on access to SDG and fair and equitable benefit sharing arising from its utilization of biodiversity conventions.
 - a. Ensure country sovereignty over ownership of Genetic Resources (SDG)
 - b. Ensure benefit sharing between providers and users.
 - c. Protecting SDG and Traditional Knowledge (PT) associated with SDG.
 - d. Ensure sustainable use
 - e. Prevent biopiracy.

4. Scope of SDG:
 - a. SDG is a genetic material derived from plants, animals or microbes, which carry functional units of inheritance and has real or potential value.
 - b. Traditional Knowledge (PT) is Knowledge, innovation, and practices of indigenous and / or local community communities related to genetic resources.
 - c. SDG derivatives are molecules or combinations or mixtures of natural molecules, including crude extracts from living organisms or those obtained from the metabolism of living organisms, although they do not contain the functional units of heredity.
5. Access to SDG is an activity of obtaining and / or carrying and / or utilizing the genetic resources of wild species for noncommercial or commercial activities.
6. Examples of non-commercial uses of SDG include: taxonomy, identification, conservation, forensics, etc. While the use of commercial SDG for example is the food / beverage industry, medicine, cosmetics, vaccines, pesticides, etc.

7. Workshops, Congress, and Day Celebration

- **Visit of the Minister of Environment and Forestry at the 2017 Conservation Camp Kota Agung to SRS WK NP**

On April 1st, 2017, WR as DE YABI accompanied by YH made an official trip to Kota Agung Lampung, in order to attend a visit of the Minister of Environment and Forestry at the 2017 Conservation Camp held at SUPMN Kota Agung starting on March 29th - April 2nd, 2017.

As for some activities that are done, such as:

1. Exhibition activities by partners with various kinds of handicraft materials and others.
2. Launching the GEF-UNDP program that was inaugurated by Head of the great hall and the Minister of LHK.
3. Giving and inauguration symbolically to the cadres coming from various sections and fields.
4. Tree planting by the guests present.
5. Competition of painting, poetry, "bakiak" and art performances.

The purposes of this activity are:

1. Efforts to conserve and maintain the environmental quality and balance of ecosystems, which exist in Lampung, especially in Tanggamus area and utilize natural resources for better.
2. Establish programmatic cooperation.

- **Coordination meeting of forest protection BBS WK NP in Bandar Lampung**

On 11th April 2017, ED of YABI WR accompanied by AKF make an official trip to Lampung in order to attend workshop law enforcement activities which is held in Bandar Lampung

- **1st birthday celebration of Rhino "Delilah" and Socialization of Expansion of Rhino Sumatera Sanctuary Infrastructure (SRS) TNWK**

On May 12th, 2017 WR as ED YABI, AKR, NA made an official trip to WK NP in order to organize 1st birthday celebration of Sumatran rhino, Delilah and the socialization of the expansion of facilities and infrastructure of the Sumatran Rhino Sanctuary (SRS) Way Kambas National Park (WKNP). The event was held exactly on Delilah's birthday at SRS WKNP.

The number of invites attended by about 200 people from the central Ministry of Environment and Forestry, Dr. Ir. Agus Justianto MSc representing the Minister of LHK, the Head of Center for Engineering, Mrs. Drh Indra, representative of KKH Mr. Ir. Haryono and PIKA representatives Mr. Indra Dirhamsyah SP, MSi. Then the invited guests from the Provincial Government of Lampung namely the Head of Tourism, Forestry, Public Relations and FK3I and from the East Lampung District namely Head of Tourism, Public Relations, Kodim, Polres, Camat, Polsek, Dan Ramil, Village Heads, Community Leaders, Representative of Elementary, junior and senior high schools around the area of WKNP. Also attended by WKNP Partners (YABI, ERU, WCS, ALERT, PKHS) and some media which is covered the event.

Three important momentum in this activity is the cutting of "Tumpeng" as a gratitude for Delilah's birth, the signing of the inscription of the expansion of SRS facilities and infrastructure, and the marking of appreciation for SRS management and staff for their dedication and hard work for Sumatran rhino conservation.

- **Press conference consortium for conservation Sumatran rhino in Jakarta**

WSR accompanied by NA and MH attend a press conference consortium for conservation of Sumatran rhino in Rimbawan I Hall, Manggala Wanabakti, Ministry of Environment and Forestry of the Republic of Indonesia.

The purpose of this press conference are to raise awareness of the Sumatran Rhino in Indonesia and the efforts to reverse the extinction of Sumatran Rhino, to introduce the efforts done by the Consortium Badak Sumatera for Sumatran Rhino, to introduce and launch #KadoUntukDelilah campaign.

- **International workshop capture and translocation of Indonesian rhino**

In order to prevent the risk of failure during capture and translocation, scientifically technical assistance from expert around the world is needed. Ministry of Environment and Forestry of Republic Indonesia and Joint Secretariat of Indonesian Rhino Conservation held International Workshop "Capture and Translocation of Indonesian Rhinos" on May 17th – 19th 2017 in The Aviary Hotel Bintaro Jakarta. YABI team who attend the workshop are WR, DDS, Zulfi Arsan (ZA), Arief Rubianto (AR), and HS.

Results of the workshop are as follows:

1. The remaining populations of Sumatran rhinos in Kalimantan, Bukit Barisan Selatan National Park, Way Kambas National Park, and Leuser ecosystem are small and isolated, limiting reproduction in the wild. There needs to be a shift from protection in the wild, to rescue and reproduction in breeding sanctuaries. Otherwise we face imminent extinction of the species.
2. The most immediate and urgent priorities are to (a) Build a simple rhino

sanctuary in Kelian Protection Forest and (b) rescue all remaining wild rhinos in East Kalimantan and translocate them into sanctuary.

3. Another urgent priority is to capture remaining rhinos in Bukit Barisan Selatan National Park (BBSNP), and translocate them to the Sumatran Rhino Sanctuary (SRS) in Way Kambas National Park or the newly proposed facility for BBSNP.
4. The more important is to capture wild rhinos from Way Kambas and translocate them in SRS in order to increase reproductive success.
5. Advocate that the Ministry Environment and Forestry ensure that the President of Indonesia is made aware of the need to save the Sumatran rhino as a national and international treasure.

8. Monitoring and Evaluation

- **Evaluation and assessment from donor (USFWS tem) visit to BBS and WK NP**

On April 12th-16th, 2017 after attend workshop law enforcement activities BBS NP in Bandar Lampung, WR and AKR meeting with donor team from Unites States Fish and Wildlife Service (USFWS) which visit Bukit Barisan Selatan National Park and Way Kambas National Park to conduct an evaluation and assessment of the implementation of RPU activities in an effort to help the Government handle the threat of hunting, encroachment and invasive plant control in each region.

- **Assessment of effectiveness of conservation area management at Ujung Kulon NP**

On 7th-8th June 2017 Muniful as Assistant Manager of Javan Rhino Protection representing the ED of YABI attended the invitation from Ujung Kulon National Park in order to participate in a meeting on effectiveness of management of conservation area of Ujung Kulon National Park, located at Kharisma Hotel, Banten.

The results of the meeting include:

1. METT is conduct every 2 years, intended to know how effective the management of conservation area.
2. In 2015 the value of METT TNUK 79.28, after verified the center team of its METT value 77.00.
3. In the year 2017 the value of METT TNUK is 80.00 by the central assessment team, TNUK and stakeholder implemented in Labuan. But there are still weaknesses, such as:
 - a. There is no short-term management plan yet,
 - b. Not all tourist sites have visitor facilities,
 - c. No tourist master plan yet.
 The three items become priority for improvement until the next 2 years assessment period.

9. Guest Visits

• IRF official visit to Ujung Kulon WKNP

On April 4th–6th, MH as IRF Liaison made an official trip to Ujung Kulon National Park in order to accompany IRF Asia Coordinator Mr. Bibhab Talukdar to conduct field visits, especially the latest activity reports from RPU Ujung Kulon and JRSCA:

1. Patrols in 8 TNUK resort areas (Cegog, Kalejetan, Legon Pakis, Karang Ranjang, Cibunar, Citelang, Peucang and Handeuleum).
2. Identification of Javan Rhino distribution.
3. Protect the Javan Rhino and other animals from the trap hunter.
4. Inventory of hunting and law enforcement activities.
5. Establish good coordination with National Parks and other stakeholders.
6. Establish communication with local communities with National Park boundaries to anticipate the disturbance.

• USFWS official visit to HQ Office Bogor

On April 21st, 2017, YABI donor team, the Unites States Fish and Wildlife Service (USFWS) visited Headquarter Office in Bogor to meet and discuss with WR as DE YABI after visited Way Kambas National Park and Bukit Barisan Selatan National Park on April 10th-16th to conduct an evaluation and assessment of the implementation of RPU activities in an effort to help the Government handle the threat of hunting, encroachment and invasive plant control in each region.

- **Visit from a communication expert in HQ Office Bogor**

On May 9th, 2017, HQ Office of YABI in Bogor received a visit from Mrs. Sally Tirtadihardja, a Communications and Information Consultant. Mrs. Sally had been a trainer on Communication and Information training for field employees at RPU WK NP. WR, Shanty Maully (SM), NA and DW, received Mrs. Sally's visit and discussed about efforts of the Indonesian rhino conservation with the support of adequate communication and information system for YABI.

This meeting discusses the evaluation of teamwork and leadership training held in Mess of Assistant Manager RPU Sumatran on April 21st-22nd, 2017. Participants attend the training very well and dynamically. Participants are excited to attend the training from start to finish, and enjoy the togetherness that comes from doing activities together with colleagues from other work units. The inputs for YABI management from Mrs. Sally include the need for regular training such as this and every member of the organization should be open with any input from other colleagues to progress together.

B. Human Resources

1. Personal

- **Recruitment of new Employees**
 - ✓ 2 New RPU WKNP member on June 2017
- **Resign and mutation of Employees:**
 - ✓ Mutation 2 Personnel JRSCA UKNP on April 2017
- **Needs of employees:**
 - ✓ 1 Field Database in RPU UKNP
 - ✓ 1 RPU WKNP
 - ✓ 1 Cooker SRS WKNP

2. Activities

- Meeting with RPU WKNP members discussed about personnel regulation on April 2017.
- Orientation and introduction of administration position of JRSCA UKNP on May 2017.

- Meeting with JRSCA UKNP Personnel discussed about personnel regulation, policies and general discussion on May 2017.

3. Official Travel

- Official Travel to RPU WKNP, Signing a contract of employment on April 2017.

- Official travel to JRSCA UKNP, Signing a contract of employment on May 2017.

4. YABI Employees per 30 June 2017

No.	Program	Working Area	Person
1	HEADQUARTER	Bogor, Jawa barat	13
2	RPU-ILEU BBS NP	Lampung	40
3	RPU WK NP	Lampung	30
4	RPU UK NP	Ujung Kulon, Banten	27
5	SRS WK NP	Lampung	25
6	JRSCA Project	Ujung Kulon, Banten	3
7	TFCA Project	Lampung	1
TOTAL			139

C. Finance Division

- Financial meeting of Finance Division with Mr. Bibhab Talukdar as IRF Asia Coordinator on April 3rd, 2017 in Headquarter Office Bogor. The meeting was about to check and discuss the 1st quarter of Financial Report 2017 grant from IRF, estimation budget claim for 2nd quarter, remaining balance per 31 March 2017 and other financial issues.

F. Project Coordinator

- **April**

- On April 5, 2017, Mr. Dadan Subrata, Ms. Ane Afteryana and Mrs. Nuke Arincy made a visit to PT Idemitsu in Jakarta to attend a meeting on a joint proposal or fundraising for the restoration rhino food plants in Way Kambas National Park.
- On April 12, 2017, Mr. Dadan Dani Subrata and Mr. Yusep Hardiana, database officer, attended an invitation from WWF IND regarding the discussion on rhino translocation and new applications related to data analysis located at Resort CICO Bogor. As for some discussion, among others non-space retrieval, closed population, open population, spatial capture, and Analysis of residents' liabilities.

- **May**

- On May 4 – 5 2017 attend the workshop preparatory meeting for the translocation of the Sumatran Rhinos hosted by WWF IND at Salak the Heritage with the following meeting agenda:
 - Finalization of a standard draft of the implementation of capture and translocation of Javan rhino and Sumatran rhino into a final document of reference for the implementation of capture and translocation.
 - Preparing description, capture and translocation team of Indonesian rhino which will be delivered in an international workshop.
 - Establish the understanding between the rhino conservation activist in Indonesia especially related to the conservation of Sumatran rhino in Indonesia.
- On 17 – 19 May 2017 attend the international workshop “Capture and Translocation of Indonesian Rhinos” hosted by the Ministry of Environment and Forestry of Republic Indonesia and Joint Secretariat of Indonesian Rhino Conservation in The Aviary Hotel Bintaro Jakarta. Results of the workshop are as follows:
 - The remaining populations of Sumatran rhinos in Kalimantan, Bukit Barisan Selatan National Park, Way Kambas National Park, and Leuser ecosystem are small and isolated, limiting reproduction in the wild. There needs to be a shift from protection in the wild, to rescue and reproduction in breeding sanctuaries. Otherwise, we face imminent extinction of the species.
 - The most immediate and urgent priorities are to (a) Build a simple rhino sanctuary in Kelian Protection Forest and (b) rescue all remaining wild rhinos in East Kalimantan and translocate them into a sanctuary.
 - Another urgent priority is to capture remaining rhinos in Bukit Barisan Selatan National Park (BBSNP), and translocate them to the Sumatran Rhino Sanctuary (SRS) in Way Kambas National Park or the newly proposed facility for BBSNP.
 - Even more important is to capture wild rhinos from Way Kambas and translocate them in SRS in order to increase reproductive success.

- Advocate that the Ministry Environment and Forestry ensure that the President of Indonesia is made aware of the need to save the Sumatran rhino as a national and international treasure.
- **June**
- In order to raise awareness and concern of the importance of managing genetic resources for sustainable national development as well as improving the implementation of the Nagoya Protocol, the Directorate of KKH - KSDAE of the Ministry of Environment and Forestry organized a socialization of 'access procedures on genetic resources and profit sharing for research' on May 16, 2017 at Hotel 201, Bogor. Mr. Dadan Dani Subrata representing the Executive Director of YABI attended the event. The results of the socialization are as follows:
 1. KSDAE is revising Law no. 5 of 1990 on the Conservation of Biological Resources and Ecosystems and one of the changes is to include issues related to the utilization of SDG (Genetic Resources).
 2. Indonesia has ratified Nagoya protocol based on Law no. 11 of 2013 on access to SDG and fair and equitable benefit sharing arising from its utilization of biodiversity conventions.
 3. Indonesia has ratified Nagoya protocol based on Law no. 11 of 2013 on access to SDG and fair and equitable benefit sharing arising from its utilization of biodiversity conventions.
 - a. A. Ensure country sovereignty over ownership of Genetic Resources (SDG)
 - b. Ensure benefit sharing between providers and users.
 - c. Protecting SDG and Traditional Knowledge (PT) associated with SDG.
 - d. Ensure sustainable use.
 - e. Prevent biopiracy.
 4. The scope of SDG:
 - a. SDG is a genetic material derived from plants, animals or microbes, which carry functional units of inheritance and has real or potential value.
 - b. Traditional Knowledge (PT) is Knowledge, innovation, and practices of indigenous and/or local community communities related to genetic resources.
 - c. SDG derivatives are molecules or combinations or mixtures of natural molecules, including crude extracts from living organisms or those obtained from the metabolism of living organisms, although they do not contain the functional units of heredity.
 - d. Access to SDG is an activity of obtaining and/or carrying and/or utilizing the genetic resources of wild species for no commercial or commercial activities.
 - e. Examples of non-commercial uses of SDG include taxonomy, identification, conservation, forensics, etc. While the use of commercial SDG, for example, is the food/beverage industry, medicine, cosmetics, vaccines, pesticides, etc.
